

Military Training Technology Magazine Recognizes Adayana for Best Programs Award

FALLS CHURCH, VA — *Military Training Technology* (MT2) magazine recognized Adayana Government Group with a Red Ribbon award for Best Program under its 2010 Top Simulation and Training Companies list. The Red Ribbon award recognizes companies who have been involved with or led a program of the year that is revolutionizing military training.

Adayana is being recognized for the Multi-user Online Virtual Exercise (MOVE) capability, a program supporting the U.S. Army Training and Doctrine Command (TRADOC) that provides an online learning environment where remote trainees collaborate with one another in a realistic environment for training purposes. Based on Adayana's Persistent Learning Environment (PLE) implementation, MOVE supports Brigade Combat Team Modernization training.

"We are excited to have been named to the Top Simulation and Training Companies List, as well as to have one of our key programs be named a winner of the Red Ribbon award," stated Jeff Kidwell, President of Adayana Government Group. "We're delighted to see MOVE named a 'Best Program' and look forward to continuing to support the warfighters in this very important effort."

Adayana was first awarded a place in the list Top Simulation & Training Companies list in July 2010, and later named as a Red Ribbon winner.

More information about the Top Simulation and Training Companies award is available [online](#), or in the September issue of *Military Training Technology*.
